

TRANSFER PLANNING GUIDE: Biopsychology B.S.

This plan assumes that full *General Chemistry* and *General Biology* series were completed prior to transfer and that *Organic Chemistry* and *Physics* series will be taken at UCSB (prepares for MCAT after graduation).

April '18

Note: Students who have completed Organic Chemistry and Physics will be on track to take MCAT in 4th year. Substitute Organic Chemistry and Physics courses with potential double major/minor courses.

Complete unfinished series at CC	Take PSY 10A + PSY 10B at UCSB
Catch up on <i>Organic Chemistry/Labs</i> and/or <i>MCDB UD</i>	UCEAP Physics Series!!! or PSY 111 and/or Biopsy Lecture(s)
UCEAP Physics Series!!! Biopsy Lecture(s)	 Congrats!

KEY

- **Biopsy Major Requirements** = Bold
- **Pre-med Requirements** = *Italicized*
- For courses completed prior to transfer, fill spaces with:
 - [Double major classes](#) (If Pharmacology B.S., plan to take MCDB 126L as your Biopsy lab)
 - [Minor classes](#)
 - Free-choice classes

= Submit "**Change of Major**" Paperwork While enrolled in PSY 10B, turn in paperwork to the PBS Main Office to request full major status.

PSY UD: 106 is open to pre-major students. This course is a prerequisite for **PSY 111**, which is only open to full-major students.

= Indicates course may be taken in either quarter

The PSY UD requirement asks for 12 units of upper-division PSY electives. These can be fulfilled by any of the following:

- PSY 100-109 courses (open to pre-majors)
- PSY 110+ courses (full majors only)
- PSY 196/197ABC/199P/199 (full major Honors/Research)

Since *PSY UD: 106* (4 units) must be taken to "unlock" **PSY 111**, 8 units remain to satisfy this major requirement.
