

SCOTT GRAFTON, M.D., directs a research program in multimodal imaging of the brain to accelerate discovery and diagnosis of the human nervous system. He trained in both neurology and nuclear medicine. In 2006, he joined UC Santa Barbara, where he directs the UCSB Brain Imaging Center. He uses fMRI, magnetic stimulation and high density EEG to characterize the neural basis of normal plasticity as well as change after injury using an approach that is grounded in 20 years of clinical experience.

KAREN BEDROSIAN COYNE graduated from UC Santa Barbara in 1991 with a double major in Biological Sciences and Linguistics and received her J.D. from USC in 1995. She is the daughter of Judith and John Bedrosian and serves as COO of the Bedrosian Trust. She is currently President of The Founding Associates of The John Douglas French Alzheimer's Foundation, Trustee of the UC Santa Barbara Foundation, and is a member of the Dean's Cabinet for the Division of Mathematical, Life, and Physical Sciences at UCSB. Karen is married to Ted Coyne and they live in Los Angeles with their two sons.

JOHN BEDROSIAN received his undergraduate degree from UCLA and his LL.B. from USC. John previously served as Senior Executive Vice President, Director and Co-founder of National Medical Enterprises (now Tenet Healthcare) and is the former Co-founder and Chairman of the Board of Auto-by Tel Corporation. He currently serves on the USC Sol Price School of Public Policy Board of Councilors. Judith has spent decades serving the community through her philanthropic efforts benefiting such organizations as The John Douglas French Alzheimer's Foundation, League for Children, Children's Burn Foundation, and the Music Center.

UNIVERSITY OF CALIFORNIA, SANTA BARBARA

CHANCELLOR HENRY T. YANG

cordially invites you to attend the
inaugural lecture and reception celebrating the appointment of

DR. SCOTT GRAFTON

*Professor, Psychological and Brain Sciences
Director of UCSB Brain Imaging Center
Co-Director of the Institute for Collaborative Biotechnologies*

to the

**BEDROSIAN COYNE
PRESIDENTIAL CHAIR IN NEUROSCIENCE**

and honoring the donors

KAREN AND TED COYNE

and

JUDITH AND JOHN BEDROSIAN

Monday, June 13, 2016
4:00 p.m.

Alumni Hall
Mosher Alumni House
University of California, Santa Barbara

PRESENTATION

"The Connected Brain in Health and Injury"

Followed by Reception

RSVP by Monday, June 6, 2016
